Part 4 Firearm Basics

Shooting To-Hit

Now it is finally time to shoot your firearm. Shooting, or rolling **To-Hit**, is a special type of Check with unique steps and set of modifiers. Simply follow the steps listed below to determine if your shot hits.

- I. Specify:
 - A. Shooting Mode: Single Shot, Burst, or Auto.
 - B. Number of Extra Attacks you wish to fire.
 - C. Traits or Abilities you wish to use before rolling to hit.
- II. Consume the required ammo as specified on the gun's stat block. Leftover ammo can be rounded up for Automatic Attacks.
- III. **Roll To-Hit with 1d20 and add —**
 - A. Distance modifier found on the gun stat block.
 - B. Ability modifier relevant for the range category you're shooting at.
 - C. The target's Stance & Visibility modifiers relative to you
 - D. Auto-attack and Hip-Fire penalties, if applicable.
 - E. Other conditional modifiers from Stance, Traits, Suppression, etc.
- IV. If the roll is equal to or greater than the standard **To-Hit DC of 10**, you can roll damage! Otherwise, the attack misses.

Some shots can be exceedingly lucky. If you roll a natural 20 to hit, roll the Attack again adding +20. This reroll rule can stack on top of itself so theoretically any gun can hit at any range. This rule also affects Extra Attacks that require a roll to hit.

Damage

If you successfully hit your target, the attack's lethality depends on how accurately it landed. First, roll the damage listed on the gun stat block and, using the table below, apply the appropriate multiplier based on the attack's To-Hit.

To-Hit Roll	10	11	12	13	14	15	16	17	18	19	+20
Multiplier	½X	½X	½X	1X	1X	1X	1X	1X	1X	1X	2X

Extra Attacks

Most guns can be shot multiple times per Action, however how those shots impact damage differs depending if the gun was fired in Single Shot, Burst, or Automatic mode. The number of Extra Attacks must be declared before rolling To-Hit.

If Firing in Single Shot

Single Shot Extra Attacks do not require a new To-Hit roll and usually adds 1 damage per extra bullet. Single Shot Extra Attacks are affected by the damage multiplier.

If Firing in Burst or Automatic

Each Burst/Auto Extra Attack requires a separate roll To-Hit. Extra Attacks function the same as a standard To-Hit roll except with an "Auto Extra Attack Penalty" listed on the gun's stat block. Extra Attacks always deal half the dice of the Base Attack and are not affected by damage multiplication.

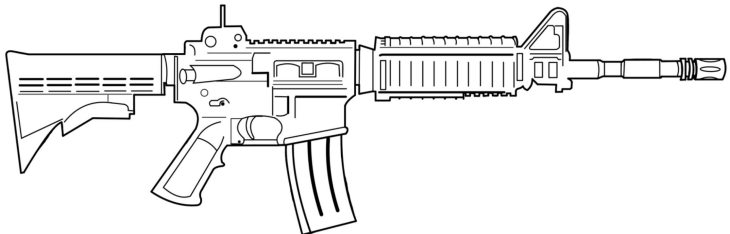

The Extra Attack Penalty starts from a Base Penalty if using a single Extra Attack and usually increases by 1 until maxing out at the weapon's Max Penalty. This penalty is then applied to all Extra Attacks To-Hit rolls used in the attack. Burst attacks also follow Auto Extra Attack rules.

The Extra Attack Penalty will be listed on the gun in the form of: **X to Y To-Hit**

- X is the Base Penalty
- Y is the Max Penalty

Firing Range Example

To help walk new recruits through the process, Private Robert J. Smith is here to demonstrate with his M4 Carbine.

Colt M4 Carbine 		Point blank (0-1 Spaces) +6 + Reflex Close (2-3 Spaces) +4 + Reflex Short (4-6 Spaces) +3 + Reflex Medium (7-10 Spaces) +0 + Focus Far (11-20 Spaces) -3 + Focus Distant (21-60 Spaces) -7 + Focus Extreme (61-100 Spaces) -12 + Focus Every +40 Spaces -7 + Focus 
Weapon Type	Select-Fire Rifle	
Damage Single Shot	1d10	
Extra Attack (Single) No To-Hit roll required	Up to 3 Extra Shots Extra Shot adds +1 damage	
Damage Auto (5 bullets)	2d5	
Extra Attack (Auto) -2 to -5 To-Hit	Up to 4 Extra Attacks 5 bullets per Extra Attack (1d5)	
Ammo	5.56x45 NATO AP Rank 3	
Magazine Size Standard Magazine	30 Bullets 2 Mags per 0.5 EqS	
Equipment Slots	5	
Heft Score	3	
Barrel Length	Carbine Rifle Barrel	

First, Private Smith will demonstrate a Single Shot attack.

- The Private starts by targeting the wooden silhouette placed 5 Spaces down range (Short Range).
- He specifies that he will fire in semi-auto single shots using all Extra Attacks. For the M4 Carbine, this is 3 Extra Attacks.

Damage Single Shot	1d10
Extra Attack (Single) No To-Hit roll required	Up to 3 Extra Shots Extra Shot adds +1 damage

- The Private fires 4 bullets, one Base Attack and 3 Extra Attacks
- Rolling 1d20, the Private rolls a 9.
 - Because the target is 5 Spaces away, it is at Short range, meaning the M4 Carbine has +3 To-Hit.
 - At Short range, Private Smith will also add +2 from his Reflex.
 - Lastly, the wood target is kneeling with no cover, so we apply a -0 To-Hit. Refer to Stances & Visibility for details.
- With a roll of 9 and modifiers amounting to +5, the total comes to 14.
- Referring to the damage multiplier table, a 14 has a x1 multiplier

To-Hit Roll	10	11	12	13	14	15	16	17	18	19	+20
Multiplier	½x	½x	½x	1x	1x	1x	1x	1x	1x	1x	2x

- The damage of an M4 Carbine is 1d10 from the Base Attack and an additional +3 from the 3 Extra Attacks.
- Private Smith rolls a 7 and adds 3 damage from the 3 Extra Attacks. In a single Action, Private Smith deals 10 damage to the target.

Next, Private Smith will demonstrate an Auto Attack.

- Private specifies that he will use 3 of the 4 Auto Extra Attacks available with the M4.

Damage Auto (5 bullets)	2d5
Extra Attack (Auto) -2 to -5 To-Hit	Up to 4 Extra Attacks 5 bullets per Extra Attack (1d5)

- The Private pulls the trigger and fires 20 bullets. 5 for the Base Attack and 15 for the 3 Extra Attacks (5 bullets per Extra Attack)
- Rolling 1d20 for the Base Attack, the Private rolls 5.
 - Using the same To-Hit modifiers, +3 distance, +2 Reflex, & +0 for the target's stance, he gets $5+5 = 10$.
 - A To-Hit roll of 10 hits, but only deals half damage.
 - Rolling the Base Attack 2d5, Private gets 1 and 4 for a total of 5. Halving the damage, the Base Attack deals 3 damage.
- Rolling 3d20 for the 3 Extra Attacks, the Private gets 17, 2, & 10.
 - M4's Extra Attack Penalty is: **-2 to -5**.
 - With 3 Extra attacks he applies a -4 on all Extra Attacks this Action.
 - Applying this to the previously calculated modifier of +5, the new modifier is +1, which means 18, 3, & 11 are the To-Hit rolls.
 - Because Auto Extra Attacks are not affected by damage multipliers, Private Smith only cares if his roll meets or beats 10.
 - 2 of the 3 Extra Attacks succeed each dealing 1d5 damage
 - Rolling a 5 & 3, then adding the Base Attack's damage, Private Robert J. Smith deals a total of 11 damage to the target.

In two Actions or a single Turn, Private Smith has dealt 21 damage to the target and nearly emptied his Magazine. So, never forget how deadly the battlefield can be and remember to always keep tabs on how much ammo you've chewed through. Thank you Private, good shooting!
